

## PARENT PARTNERSHIP POLICY

At Wibli Wobli Nursery, we believe that close collaboration between parents and staff is essential for providing the highest quality care and early learning tailored to each child's individual needs. We welcome parents as partners in their child's development and foster a two-way sharing of information to build trust and understanding. Our commitment is to support parents openly and sensitively, encouraging them to be integral members of the care and learning team within the nursery.

The key worker system ensures that every parent is engaged and involved in their child's learning and development. Parents contribute to initial assessments of their child's starting points upon entry and are kept well-informed about their child's progress. We encourage parents to share information about their child's learning at home, and the key worker ensures that all practitioners use effective, targeted strategies and interventions to support each child's unique needs.

Our Policy is to:

- Recognise and support parents as their child's first and most important educators, welcoming them into all aspects of nursery life.
- Instill confidence in parents and encourage them to trust their instincts and judgement when it comes to their child.
- Welcome all parents into the nursery at any time, providing a confidential space for private discussions as required.
- Support nursing mothers by offering a private area for breastfeeding when needed.
- Provide nursery communications in different formats to meet parents' needs, including Braille, multilingual options, and electronic communications.
- Ensure all parents are familiar with the nursery's policies and procedures, providing a detailed parent prospectus and making full policy documents available at the reception.
- Maintain regular communication with parents to build strong, beneficial relationships with each family.
- Support parents' personal and professional development, including parenting skills, and inform them about relevant training opportunities, conferences, and workshops.
- Create opportunities for parents to engage with each other in a supportive environment, such as open days, parents' evenings, and a parents' forum.
- Keep parents informed about the daily activities, routines, meals, and events through the nursery app, website, and social media.
- Implement a key worker system that allows parents to develop a close working relationship with a named practitioner and encourages regular two-way information sharing about their child's needs.
- Provide regular updates on a child's progress, including parents' evenings at least twice a year, and consult with parents on meeting times to ensure accessibility.
- Encourage parents to contribute to their child's learning by sharing observations, interests, and experiences from home, either verbally, through photographs, or in writing.

- Agree the best communication method with parents (email, face-to-face, phone) and share details of their child's day (e.g., meals, activities, sleep times).
- Consider all feedback from parents, including suggestions regarding the care, learning, and nursery operation.
- Encourage parents to contribute their skills and knowledge to the nursery's activities and programs.
- Ensure parents are informed of the processes for registering queries, compliments, complaints, or suggestions, and ensure they understand how to access the complaints procedure.
- Provide information on the Foundation Phase and how parents can further support their child's learning at home, including access to additional resources.
- Provide a written contract between the nursery and parents, outlining the terms of acceptance and payment arrangements.
- Respect family backgrounds, cultural beliefs, and religious practices, accommodating special requirements wherever possible.
- Inform parents about how the nursery supports children with Additional Learning Needs (ALN), including any specific interventions or strategies in place to support the child's development.
- Regularly gather feedback from parents through questionnaires and suggestion systems, and use this feedback to enhance nursery practices, policies, and staff development.
